

Bachelor of Science Digital Marketing (BSDMK)

• CIP 521499 • 120 credits

Program Description

The Bachelor of Science in Digital Marketing (BSDMK) is uniquely designed for students interested in learning the emerging trends in digital media and how to leverage the power of mobile devices, social networks, graphic design, and the interactive Web to meet (and exceed) business objectives. This program will teach students how to embrace the evolving digital world and to create innovative marketing strategies using new technologies that engage online audiences, cultivate digital opportunities and achieve a competitive advantage.

The BSDMK program offers three concentrations: Marketing Analytics, Strategic Marketing, and Virtual Marketing, and is consistent with CCG's mission of providing a high quality curriculum with a focus on educating competent and skilled business professionals. While the BSDMK program curriculum includes several business core courses offered through CCG's BSBA program, the BSDMK program curriculum offers in-depth course work in the niche areas of digital marketing, public relations and advertising that are intended to provide learners with a unique skill set applicable to current industry needs, as noted in the curriculum map below.

Program Outcomes

The Program Learning Outcomes for the BSDMK program are:

- Develop an understanding of how digital marketing principles and strategies are used to achieve marketing, management, and business objectives.
- Identify ways in which marketing practices evolve within a digital framework and integrate digital components into a comprehensive marketing plan.
- Conduct research on contemporary issues in digital marketing and apply statistical reasoning toward forming research findings.
- Predict and convey to various audiences emerging technology trends and manage their impact on marketing strategies.
- Identify and assess the legal and ethical aspects of the digital medium and form approaches for navigating these components.
- Devise targeted marketing strategies in a digital framework and determine the measurements and metrics to be used for continual analysis.
- Develop, analyze and design basic web sites geared toward the goals of effective marketing, advertising, public relations, and ecommerce.
- Analyze companies' search engine performance strategies and identify optimal solutions to maximize return on investment.
- Formulate digital marketing communications to promote customer relationships, enhance brand image, and expand market reach.

Instructional Delivery

The BSDMK is an online program. Courses are eight weeks in length, and there are six sessions each year. The BSDMK is offered in a 100% asynchronous online format, and there is a strong focus on engaging students in a dynamic and interactive online learning format.

Given that CCG students are primarily working adults, the average program completion is five (5) years or thirty (30) eight-week terms.

	English Composition I English Composition II
INF 101W	Iking and Literacy Information Literacy for College Success (Required as first course at CCG) Critical Thinking
Choose two ART 301W ENG 305W ENG 405W	anities
