

Bachelor of Science

Bachelor of Science in Healthcare Administration (BSHCA)

• CIP 510701 • 120 credits

Program Description

The Bachelor of Science in Healthcare Administration (BSHCA) is a 120-credit program that is designed to provide students with a strong foundation of academic study in leadership and management in the healthcare industry. In this program, students will develop an understanding of the essential aspects of healthcare management through courses in healthcare finance, healthcare management, and the healthcare industry. Those students who enter the BSHCA program should be well-prepared with the fundamentals in General Education and core 100 and 200 level healthcare and business courses.

Program Outcomes

- Explain and compare the organizational elements, structure, performance, terminology, and delivery modalities for the U.S. and global healthcare systems.
- Analyze the structure and interdependence of healthcare system elements and issues using critical thinking to formulate innovative system designs that improve healthcare delivery.
- Create policy and processes and execute decisions in compliance with the legal, regulatory, and ethical considerations inherent in managing healthcare systems and organizations.
- Integrate concepts of ethics, privacy, law, and regulation to achieve optimal organizational effectiveness while adhering to the professional values and standards of the healthcare industry.
- Communicate and present data, ideas, and concepts in healthcare administration in a clear and effective fashion.

Instructional Delivery

The BSHCA is an online program. Courses are eight weeks in length, and there are six sessions per year. The BSHCA is offered in a 100% asynchronous online format, and there is a strong focus on engaging students in a dynamic and interactive learning format.

Given that CCG students are primarily working adults, the average program completion is five (5) years or thirty (30) eight-week sessions.

Program chair: Sandra S. Arabian, MBA, NREMT, CSTR, CAISS
