## Program Description

From small businesses to large corporations, even minor ripples in the supply chain can have far-reaching effects. This means increased efficiency, even at a small scale, can create exponential benefits down the line. This program is designed for individuals who are seeking to improve the effectiveness of the supply chain within their organization. Managers of essential product distribution, logistics, and services will gain a better understanding of the supply process and how to manage it more efficiently.

## Supply Chain Management Curriculum ..... 9 credits

The Graduate Certificate in Supply Chain Management includes three graduate-level courses which focus on the efficiency and effectiveness of the supply chain process. Special consideration is given to the productivity and performance management of people, systems and technology in the supply chain.

- QSM525W Quality Systems and Strategic Planning
- QSM545W Supply Chain Management
- QSM543W Business Process Analysis

Students who complete this three-course certificate have the option to take 7 additional courses to obtain their Masters in Quality Systems and Improvement Management or 9 courses to receive their MBA with a Quality Systems Concentration.
