

Associate of Science

Healthcare Administration (ASHCA)

• CIP 510701 • 60 credits

Program Description

The Associate of Science in Healthcare Administration (ASHCA) is a 60-credit program that is designed to provide students with a strong foundation of academic study in the healthcare industry. These foundational courses include healthcare terminology, essentials of healthcare in the United States, and medical law and ethics. Those students who plan to continue their education at the bachelor level should be well-prepared, having completed standard General Education courses as well as key core 100-200-level business and healthcare courses.

Concentrations: The ASHCA offers the following concentrations: Healthcare Reimbursement and Medical Office Administration.

Program Outcomes

- Demonstrate the use of medical terminology in the appropriate context.
- Recognize and apply HIPAA compliance policies in different medical situations.
- Employ the use of medical terminology to aid in the administration of patient files.
- Complete basic forms required in a medical office to administer claims.
- Demonstrate strong communication skills and an understanding of the basic concepts of disease processes.

Instructional Delivery

The ASHCA is an online program. Courses are eight weeks in length, and there are six sessions each year. The ASHCA is offered in a 100% asynchronous online format, and there is a strong focus on engaging students in a dynamic and interactive online learning format.

Given that CCG students are primarily working adults, the average program completion is three (3) years, four (4) months (part-time; 20 eight-week sessions), or one (1) year, four (4) months (full-time; 10 eight-week sessions).

(All courses @ 3 credits except as noted.)

ASHCA General Education 21 credits

English6
 ENG 101W English I
 ENG 201W English II

Critical Thinking and Literacy6

INF 101W Information Literacy for College Success
 (Required first course at CCG)
